Description			
<p>hi,</p> <p>would be cool to have markers in the scrollbar like described here: http://aruiz.synaptia.net/siliconisland/2010/07/marker-support-in-gtkscrollbar.html</p> <p>this would be very useful if you are highlighted and dont know how often, or to be able to see where your search matches.</p> <p>thanks!</p>
