

Quassel IRC - Bug #1033

"Jump to markerline" doesn't work properly with fixed backlog fetcher in busy buffers

10/21/2010 09:30 AM - amiconn

| Version: | 0.7-pre | | |
| Description | | | |
| <p>If the markerline is farther away than the visible part of the backlog plus one time the "dynamic backlog amount", the Ctrl-K shortcut doesn't work as intended. This can only happen with the fixed backlog fetcher of course, since the "unread messages" fetcher always fetches enough.</p> <p>The client just fetches 1x "dynamic backlog amount", and the list position stays the same. Pressing Ctrl-K repeatedly makes it fetch one more "dynamic backlog amount" each time, and will finally jump to the markerline when the backlog finally got back to it.</p> <p>This behaviour becomes more likely for low values of "initial backlog amount" and "dynamic backlog amount", e.g. if one is using UMTS/EDGE and wants to conserve bandwidth.</p> <p>Actual client version is 0.8-pre+27 git-97163ce; this still cannot be selected in the Version dropdown...</p> | | | |
