Description

-tooltip doesn't work with windows (hidden behind toolbar)
-minimize on click works with linux, not with windows
-problems with raise in linux
-minimize on minimize button makes problem under windows

that should be all

History

#1 - 02/22/2008 12:41 PM - phon

*removed tooltip - if nescessary perhaps trayicon::displayMessage() should be used
*removed minimize-on-minimize for winodws until problem resolved
*left-click on the trayicon minimizes the application in windows again

#2 - 02/27/2008 03:56 PM - phon

Apart from the raise() (put window on top) which works differntly (works or doesnot work) with different OSes and Screenmanagers, the rest should work just fine.
