- Status changed from New to Feedback

0.6.1 is very old, you should try out a newer version.

#3 - 06/14/2021 02:55 PM - phuzion

- Status changed from Feedback to Resolved

0.6.1 and 0.7.1 are very old, and no longer supported. If this specific issue reappears with a more modern client/core combination, please feel free to reopen this bug with more specific details about the crash.

I'm going to resolve this issue for now.
