<b>Description</b>			
<p>I personally don't like the way how Notices are shown. So I'd just like to take this issue for open discussion.</p> <p>I've attached a screenshot to point out my main concerns:</p> <p>1.) I think those brackets ([ ]) look strange and are unnecessary, especially on empty messages.</p> <p>2.) If the message is coming from a regular user, I think only the nickname should be displayed and not the whole hostmask.</p> <p>Thoughts?</p> <p>PS: I'm assigning this to you sput, as you're the style engine pro :)</p>
