

## Quassel IRC - Bug #1191

### U+200B "ZERO WIDTH SPACE" characters causing client crashes

10/14/2012 01:53 AM - rikai

<b>Status:</b>	Closed	<b>Start date:</b>	10/14/2012
<b>Priority:</b>	Urgent	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Quassel Client	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>OS:</b>	Any
<b>Version:</b>	0.8.0		
<b>Description</b> U+200B "ZERO WIDTH SPACE" characters will cause a client crash on mouseover. As a side effect, also breaks URL detection for any URLs including the characters.  This sample will cause client crash on mouseover: testtest This one should break url detection AND cause client crash on mouseover: http://google.com/—			

#### History

##### #1 - 10/14/2012 12:13 PM - Anonymous

Can't reproduce the crash here. Could be a windows only Qt issue.

There's a seperate ticket for the url breakage ([#1092](#)), which in this case might even be desired (major browsers reject such urls for being misleading)

##### #2 - 04/17/2013 08:49 PM - Anonymous

- Status changed from New to Closed
- Version changed from 0.8-pre to 0.8.0

Qt issue, reportedly solved in 4.8.4 (used for the 0.9.0 Windows builds).
