

Quassel IRC - Bug #120

BufferSyncer doesn't properly remove deleted buffers

02/26/2008 08:01 PM - EgS

Status:	Closed	Start date:	
Priority:	High	Due date:	
Assignee:	EgS	% Done:	0%
Category:	General / Unspecified	Estimated time:	0.00 hour
Target version:	0.2.0-alpha2	OS:	Any
Version:	0.13.1		
Description			
When removing a buffer the core buffersyncer doesn't seem to properly remove this buffer from it's internal list. On next core connect activity info is sent to the client even for buffer that no longer exist. for example:			
\$./quasselclient			
Client::updateLastSeen(): Unknown buffer 12			
Client::updateLastSeen(): Unknown buffer 304			
Client::updateLastSeen(): Unknown buffer 305			
Steps to reproduce:			
1.) delete a buffer			
2.) disconnect from core			
3.) reconnect to core and wait a bit
