Can you start by trying the 0.9.0 builds? Also, does it crash all the time when certain messages are received, or just sometimes? The one person that frequently had this log couldn't reliably reproduce (and i could not reproduce at all, the one time i had access to osx).

Sorry for the late response.

I have been waiting for this error to come back, it hasn't.

It crashed everytime i recieved the message i posted above. I havn't recieved it since and havnt had any crashed.

I'll get back to you again if i get the error and i will try to replicate it.
