

Quassel IRC - Bug #1263

Chat monitor ignores its ignore settings

02/23/2014 11:35 PM - amiconn

Status:	New	Start date:	02/23/2014
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		OS:	Any
Version:	0.10-pre		
Description			
<p>Actually this seems to be an older bug, but became more apparent with the newly-added backlog functionality in the chat monitor. If you configure the chat monitor to ignore selected buffers, this configuration does not work.</p> <p>I've set it to ignore the network buffers of all networks I'm connected to, plus "NickServ" on Freenode, however, the chat monitor still includes messages from these buffers.</p>
