

Quassel IRC - Bug #1268

Tray icon in Mac 10.9.2

03/21/2014 11:05 AM - natrim

Status:	New	Start date:	03/21/2014
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		OS:	Mac OS X
Version:	0.9.2		
Description			
when the tray icon is disabled in Quassel options, in the tray stays invisible space			
how to reproduce:			
1) disable tray icon and quit Quassel			
2) then run it again and you will see empty space in system tray			
enabling the try icon only creates new one until Quassel restart
