Quassel IRC - Bug #1270

Hide inactive networks hides too many networks

03/25/2014 12:35 AM - ayonix

Status:	New	**Start date:**	03/25/2014
Priority:	Low	**Due date:**	
Assignee:		**% Done:**	0%
Category:		**Estimated time:**	0.00 hour
Target version:			
Version:	0.10-pre	**OS:**	Windows

Description

If 'hide inactive networks' is active and the core is connected to network A, B and C:
Disconnecting from network B will hide network B and C although C is still connected (and thus active).
Clicking 'Show/Hide networks' in the list will make it visible again.
