Quassel IRC - Bug #1292

Should re-connect to core when network is back up

Target version:			
Version:	0.10.0	**OS:**	Any

Description

Quassel should automatically re-connect to the core when the network is back up.

Steps to reproduce:

- Connect to the core
- Plug out the LAN cable. Quassel disconnects.
- Plug the LAN cable back in, wait till Network-Manager does DHCP etc.

Actual behaviour:

- Quassel does nothing

Expected behaviour:

- Quassel should notice the network is back up (NM announces with via d-bus, I assume solid forwards that) and re-connect
