

## Quassel IRC - Bug #1313

### Hidden events still cause the IRC channel status to change colour in the side bar

09/24/2014 04:51 AM - sukosevato

<b>Status:</b>	Resolved	<b>Start date:</b>	09/24/2014

<b>Target version:</b>	0.10.1	<b>OS:</b>	Linux
<b>Version:</b>	0.10.0		
<b>Description</b>			
Hey,			
I am using Quassel-client 0.10.0-1 (QT4) on Arch Linux in combination with quassel-0.10.0 running as core on FreeBSD.			
When I choose to hide events in the client like joins/parts/quits, they are beautifully filtered from the chat window. However, in the 'All Chats' side bar the colour of IRC channel names still changes to reflect these hidden events. So the colour changes, prompting me to check the irc channel and I see nothing new because it was a hidden event that triggered the colour change.			
Ask away if you'd like more information.			
Kind Regards,			
Robert Sevat			

### History

- Status changed from New to Resolved

I am unable to reproduce this issue on Windows 10 20H2 or Fedora 34, both running Quassel 0.13.1 or newer.

I suspect that at some point, this was fixed without realizing, perhaps the result of a code overhaul.

I'm going to close this issue, but if you continue to have this issue please feel free to reopen it.
