

Quassel IRC - Bug #1384

Clickable links ignore some valid URI characters.

10/01/2015 10:21 PM - wink

<b>Status:</b>	New	<b>Start date:</b>	10/01/2015
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>OS:</b>	Any
<b>Version:</b>	0.11-pre		
<b>Description</b>			
For example <a href="http://example.org/bar'baz">http://example.org/bar'baz</a> only highlights (and makes clickable) <a href="http://example.org/bar">http://example.org/bar</a> and not the whole url.			
It seems this was correct at some point but got broken in [0].			
While the removal of "[" and "]" in this commit was correct, according to [1] the "" (single quote) is fine.			
[0] also references RFC 2396 which should be superseded by RFC 3986, but it's kind of hard to define as [2] (a Firefox bug) was arguing to and fro for years over "" versus "%27" (related, but not a parser bug per se).
