Quassel IRC - Bug #1394

Sort alphabetically is not reapplied after new /join

01/26/2016 06:59 PM - chiluk

Status:	New		**Start date:**	01/26/2016
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Quassel Client		**Estimated time:**	0.00 hour
Target version:	Some future release			
Version:	0.11-pre		**OS:**	Linux

Description

I'm running v0.12.2 (dist-9c5e6c6)
I have "Sort alphabetically" checked in Chat List Settings. However if I /join a new channel it always is placed at the bottom of the chat list. Occasionally new private chats even get intermixed with channels.

This is one of my biggest issues with Quassel IRC, by the way. You see Quassel IRC is working rather fine if **this** is my biggest issue with it ;)

A fix would be much appreciated.
