<b>Description</b>			
<p>This has already been reported 9 years ago as &lt;<a href="http://bugs.quassel-irc.org/issues/298">http://bugs.quassel-irc.org/issues/298</a>&gt;, and then fixed, but now the bug seems to be back: When I single-click a channel in the list on the left, it joins the channel.</p> <p>This could be related to me using the default KDE setting of "single-click" -- but that shouldn't make it impossible to view the backlog of a channel without re-joining it.</p> <p>This is with Quassel 0.12.4 from Debian.</p>
