<b>Target version:</b>			
<b>OS:</b>	Any		
<b>Description</b> In the toolbar perhaps a text box to join a new channel may be added  <code>[connect to irc button] [disconnect from irc button] &lt;-- a large gap --&gt; [ #channel name input box ] @ [ irc networks dropdown ] [JOIN button]</code>  When no channel is specified, join the currently open chat (if it is not joined already).  Currently the join button opens a dialog.  Implementing this would mean that we can join a channel in one click instead of two.
