

Quassel IRC - Bug #1533

quasselclient.conf not read if it's a symlink

09/09/2019 10:46 PM - mxmilkb

Status:	Closed	Start date:	09/09/2019
Priority:	Normal	Due date:

Target version:		OS:	Linux
Version:	0.13.0		

Description

I'm migrating my dotfile configuration management to GNU Stow which uses symlinks.

If I move ~/.config/quassel-irc.org/quasselclient.conf to my Stow directory and recreate as a symlink, quassel loads but as if the configuration was not read.
