

Quassel IRC - Feature #1549

Export/Import to Cloud

01/20/2020 10:56 PM - calcmandan

Status:	New	Start date:	01/20/2020
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Quassel Core	Estimated time:	0.00 hour
Target version:			
OS:	Any		
Description			
Requesting a feature that can import/export (backup/restore) configuration and cache to the cloud. Particularly, I'm interested in nextcloud, that i self-host. But, of course, dropbox, box, azure, aws works too.			
I would really like a disaster recovery tool that quassel core can utilize and do automated backups on a scheduled basis.
