Quassel IRC - Bug #1770

Topic links don't respect custom stylesheet on launch

Description

I have a very minimal stylesheet that changes link colors:

```
Palette {
    /* Link colors */
    link: #03a9f4;
    link-visited: #AB47BC;
}
```

On launch, topic links are displayed in the default color ie not the color from my stylesheet. If I disable the stylesheet, apply, re-enable it, apply, and then select a different channel that has a link in its topic, the color is correctly applied.
