Quassel IRC - Feature #1787

Identify clients connected to core with names

01/22/2022 06:46 AM - knivey

Status:	New	**Start date:**	01/22/2022
Priority:	Low	**Due date:**

Target version:			
OS:	Any		

Description

This way you can see what machines you have connected in the coreinfo dialog and if you want to End Session you know which one to click.
Client names would default to the pc hostname/device name but be configurable in client settings.
