Description

Dear Colleagues,

the sort order of the channel list in the GUI client should be configurable..
sort a-z , sort z-a , unsorted something like this :)

This is a wishlist bug :) Will see how to tweak your gui to make that happen

History

This is already possible with the custom views.
Have a look at "Manage Views" in the "Views" menu or in the settings.
Default sorting is alphabetically (after they are sorted by type (statusbuffer, channel, query)) or in join order if this option is disabled. The sort order can be changed individually using drag and drop.

Feel free to join #quassel on Freenode if there are any open questions.
