

Quassel IRC - Feature #213

Add a multiline write line with a toggle button like Chatzilla

07/08/2008 12:26 PM - ZRegis

Target version:	0.5.0		
OS:	Any		
Description Sometimes you want to add edit and send a text with multi lines reply. The possibility to have a multi line space to edit could be a great new feature. Regarding also to the 0000209 bug. The chatzilla client give a good example for that.

Revision f047a4f7add72ef7e32ad33f884e62a5773ecc72 - 08/16/2009 01:03 PM - Manuel Nickschas

Introduce multi-line editing for the inputline

This introduces the new MultiLineEdit that basically enhances the old InputLine widget by being able to expand to show more than one line. All non-editing related things have been moved out of the MultiLineEdit to ease reuse in other widgets. For example, InputWidget-specific keypresses are now handled in InputWidget rather than MultiLineEdit.

Closes #209, closes #213, fixes #386. Thanks to Squider for input (I saw your patch too late, but I did refactor things anyway...)

I'm not sure about the toggle button, but using ctrl-enter or shift-enter to switch to multiline mode and add a new line would be nice.

Also, it'd be great if it automatically recognizes a multiline copy/paste (and removes the last newline at the end) rather than sending them right away without any chance of editing.

#2 - 04/21/2009 01:00 AM - Squider

- File 0001-The-InputLine-is-now-multi-line.patch added

I found some free time and decided to make something nice for you all. The included patch is against the current git master.

- The input line now automatically expands up to 8 lines.
- Control+Up/Down are now used to scroll the ChatView.
- Shift+Up/Down are used to manipulate the InputLine.

- Shift+Return lets you enter a new line.
- User now can always review pastes before sending to IRC.

And what comes to those trailing newlines, empty lines are not sent at all (like before).

#3 - 04/21/2009 01:45 AM - Squider

- File 0001-Play-nice-with-older-Qt.patch added

Sorry, I mistakenly commented out one preprocessor block. Here is a patch reverting that change. This patch also removes some unneeded margin-space when using Qt < 4.5.

#4 - 08/14/2009 08:16 PM - Sputnik

- Status changed from New to Assigned
- Assignee set to Sputnik
- Priority changed from High to Normal
- Target version set to 0.5.0

#5 - 08/16/2009 01:04 PM - Sputnik

- Status changed from Assigned to Resolved
- % Done changed from 0 to 100

Applied in changeset [f047a4f7add72ef7e32ad33f884e62a5773ecc72](#).
