Quassel IRC - Bug #273

Send unknown commands to server

08/12/2008 09:14 PM - xAFFE

Status:	Resolved		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	100%
Category:	Quassel Core		**Estimated time:**	0.00 hour
Target version:				
Version:	0.4.3		**OS:**	Any

Description

If Quassel encounters an unknown command it should be directly to the server. There should be an option to turn this behaviour on and off.

For example in Freenode there are the server side aliases /ns and /cs for /msg nickserv and /msg chanserv, which arent supported atm.

Allow sending unknown commands to server with >1 params

Thanks to tililambert for the fix. Fixes #273 again.

History

#1 - 09/16/2008 10:56 AM - billie

I often used /ghost with the conspire irc-client on freenode to remove old nick aliases which are remaining after a disconnect and would normally be removed when they time out. So I can change back from my nick alias to my main nick before it times out. Quassel does not recognize this command too.

- Status changed from Resolved to Feedback

- % Done changed from 100 to 90

Hi !
I tested it with minbif. And I was not able to pass more than one argument.
I made a 'little patch' for it. I just changed one line ;)

Thanks again for quassel !!
