

## Quassel IRC - Bug #290

### Sanitize input of UserInputHandler::handleJoin

08/18/2008 02:41 PM - xAFFE

<b>Status:</b>	Resolved	<b>Start date:</b>	
<b>Priority:</b>	High	<b>Due date:</b>	
<b>Assignee:</b>	Sputnick	<b>% Done:</b>	0%
<b>Category:</b>	Quassel Core	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	0.3.0	<b>OS:</b>	Any
<b>Version:</b>	0.13.1		
<b>Description</b> If users put whitespaces between the channels in /join statements the core crashes.			
<b>Additional information:</b>  Attached is a patched to fix the behaviour.

##### Revision 6848967a5071f48f2cd742b548dd97d8525733df - 11/15/2008 10:34 PM - Manuel Nickschas

Don't try to workaround QSystemTray's not being able to close its bubble on Mac

Displaying an empty bubble with 1ms timeout to force the bubble to close on re-activation does not work on Mac either. Please let me know if there are problems with that on X11 as well.

Fixes BR #290.

Don't try to workaround QSystemTray's not being able to close its bubble on Mac

Displaying an empty bubble with 1ms timeout to force the bubble to close on re-activation does not work on Mac either. Please let me know if there are problems with that on X11 as well.

Fixes BR #290.

#### History

##### #1 - 08/18/2008 03:08 PM - xAFFE

This doesnt work since the keys are also seperated by ,. So if you do /join #chan1, #chan2, #chan3 key1, key2 this wont work. EgS proposed to do s/, +/,/ on the msg string to sanitize it.

The attached patch does this.

##### #2 - 08/18/2008 03:42 PM - EgS

patch was applied and is in current git:
