

Quassel IRC - Bug #298

Quassel join channels when single-clicking the name in the bufferview

08/28/2008 10:50 AM - adamtulinius

Status:	Resolved	Start date:	
Priority:	High	Due date:	
Assignee:	Sputnick	% Done:	0%
Category:	Quassel GUI (Qt)	Estimated time:	0.00 hour
Target version:	0.3.1	OS:	Any
Version:	0.13.1		
Description			
After parting a channel, a normal click on the channel will make you join again (-- it should be a double-click).			
Regression from .. eh.. sometime in the past :-)

AFAIR this was changed from doubleClicked() to activated() a while ago, because doubleClicked() fails on Mac. Apparently, activated() fails on X11 though.

We explicitly require a double click now again on X11, even though the docs for activated() suggest differently...
