

Quassel IRC - Bug #325

CoreConnectionDialog forgets data, SSL status not reflected correctly

09/26/2008 01:40 AM - Sputnik

Status:	Resolved	Start date:	
Priority:	High	Due date:	
Assignee:	Sputnick	% Done:	0%
Category:	Quassel Client	Estimated time:	0.00 hour
Target version:	0.3.1	OS:	Any
Version:	0.13.1		

Description

Toggle the SSL checkbox and click OK -> Quassel seems to forget stored account data
Also, after disabling SSL and reconnecting to the core, the "secure" icon was still shown in the statusbar (restarting the client fixed that).

Not sure if/how those two relate, don't have time to investigate this more, so I am posting this mostly that I don't forget :)
