

Quassel IRC - Feature #414

scale status-icons (away,online,offline) to font size

11/21/2008 11:35 AM - pennywise

OS:	Any		
Description Currently I'm using font size 10 for my chat buffer. The icons are 16x16 pixel, which works quite well, but I would like to have those icons as high as the font they are attached to. Propably a vector icon is the best solution here. I know this is kind of very low priority but a really nice to have :)

I like this status icons very much. They seem a bit big to me too. Making them as big as the font size or otherwise scalable would be nice.
