

Quassel IRC - Feature #421

Have a "On attach" and "On detach" perform list

11/24/2008 03:18 AM - sph

<b>Status:</b>	New	<b>Start date:</b>

<b>Description</b>			
So rather than just having an away-on-detach option, it would be nice if we had some sort of perform list as well (/instead).			
That way, you can leave channels on detach and rejoin them on attaching, say some annoying away message, do op stuff, ... I'm sure people will come up with a lot more interesting uses that I haven't even dreamt of ;)

away-on-detach would be subset of that new functionality. And it should not be extremely hard now that away-on-detach already works.
