

Quassel IRC - Bug #524

Crash while switching channel

02/07/2009 06:23 PM - kitterma

Status:	Closed	Start date:	02/07/2009
Priority:	High	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		OS:	Any
Version:	0.5.2		
Description Kubuntu package with Feb 06 git snapshot. Using the client, I was switching channels when it crashed (just after I'd clicked on a new channel). The odd thing about this situation was that the client was not connected to the core, but hadn't noticed yet. I'd just resumed from suspend and the network was coming up. Crash log attached.			
Related issues: Is duplicate of Quassel IRC - Bug #566: Segfault on network disconnect

History

#1 - 02/07/2009 06:45 PM - EgS

This BR is lacking debug symbols. But from what's there it looks very similar to the issue, tha was fixed in:

<http://git.quassel-irc.org/?p=quassel.git;a=commit;h=46d75f41de7c1aaee605c096da28d4b0d8abf138>

#2 - 04/02/2009 12:57 PM - Sputnik

- Status changed from New to Confirmed
- Priority changed from Normal to High
- Version changed from 0.3.1+ to 0.3.0.x
- OS set to Any

Quite probably the same issue as in [#566](#), adding yet another way to trigger it, it seems.

#3 - 03/04/2010 08:38 PM - johu

- Status changed from Confirmed to Feedback

please give feedback, if this is resolved with quassel 0.5.2 or higher

#4 - 08/04/2010 09:38 PM - johu

- Status changed from Feedback to Closed
- Version changed from 0.3.0.x to 0.5.2

No feedback was given within 5 months
