Quassel IRC - Bug #556

Better defaults for coloredsender

02/16/2009 08:42 AM - Rasi

Version:	0.3.0.x		**OS:**	Any

Description

The default colors of coloredsender are partly unreadable. Quassel (in default config) has a white background and some very light colors cannot be read at all.

Also some of the colors are not visible, if you get hilighted (Again, with Quassel's default hilight color)
