- Status changed from New to Feedback

- Target version deleted (0.4.1)

It's now part of the logo graphics - so not translatable. Not sure if it's possible to do it as a string again and still have it look good.

I think we definitively need to find a solution to translate that:
- Editable string: the more simple. It was used before
- Editable logo: could be a solution
- Generated picture: based on translation string
