Description

When using coloured nicks, it would be nice to use plain bold black for my own nick, so I can easily distinguish it from all the other coloured nicks.

This will be possible with the new style engine.

#2 - 05/11/2010 10:46 PM - Sputnick

- Status changed from Assigned to Resolved

As predicted, this is possible with the not-so-new-anymore style engine :) Have a look at /data/stylesheets/m4yer.qss which does this afair.
