

Quassel IRC - Bug #609

Buffer list not correctly sorted after unhiding buffers

03/07/2009 07:07 PM - Nightfall

Status:	Resolved	Start date:	03/07/2009
Priority:	Normal	Due date:	
Assignee:		% Done:	100%

Target version:		OS:	Windows
Version:	0.4.0+		

Description

When you unhide (temporarily) hidden buffers in a sorted buffer view, they appear at the bottom of the network's buffer list instead of at the correct position.

Steps to reproduce:

- 1) Unhide all channels for a specific network
 - 2) (Disable and) enable "Sort alphabetically" for the buffer view to sort the list
 - 3) Hide some buffers (temporarily)
 - 4) Switch to "Edit mode" ("Show/Hide buffers" in the context menu) and unhide several channels
 - 5) Leave edit mode
- > The unhidden channels are shown at the bottom of the list instead of at the correct position
Client restart doesn't fix it.
