Quassel IRC - Bug #634

Connect button disabled when disconnected.

03/18/2009 04:35 PM - jesperht

Status:	Resolved		**Start date:**	03/18/2009

Description
Using KDE4, on Intrepid. To reproduce: *Connect to a core *Disconnect networking *Look at "connect" button still being disabled. Not a huge issue, since I can use the menu to connect again - but annoying, since the toolbar is basically useless because of this.

I am unable to reproduce this issue on Windows 10 20H2 or Fedora 34, both running Quassel 0.13.1 or newer.

I suspect that at some point, this was fixed without realizing, perhaps the result of a code overhaul.

I'm going to close this issue, but if you continue to have this issue, more than a decade later, please feel free to reopen it.
