

Quassel IRC - Bug #665

NetworkModelController fails with multiselection

04/09/2009 10:56 PM - Sputnik

Priority:	Normal	Due date:	
Assignee:	Sputnick	% Done:	100%

Description			
For example, selecting several buffers and trying to hide them all will fail. Without having looked into the code, I guess this could be to do with QModelIndex becoming invalid while working with the list (aka: we remove a buffer -> model changes -> our list is invalid).
