Description			
[13:01:29] <jussi01> [12:55:32] <Kvant> jussi01, it's sent to ops as regular privmsg:s [13:01:29] <jussi01> [12:57:06] <bagelcat> jussi01: irc has RFC's as followed: . RFC 1459, RFC 2810, RFC 2811, RFC 2812 and RFC 2813 [13:01:29] <jussi01> [12:57:25] <spb> and they're all obsolete [13:01:29] <jussi01> [12:57:39] <bagelcat> hmm.. [13:01:29] <jussi01> [12:57:54] <spb> jussi01: ops will see all text sent to the channel, as though +m weren't there [13:01:29] <jussi01> [12:58:10] <spb> jussi01: non-ops will see only text sent by +v or +o users, as though +z weren't there [13:03:26] <jussi01> [13:02:56] <Kvant> jussi01, seems there's an extra space sent before the channel name [13:03:49] <Sput> aah that could be the culprit
