Target version:	0.2.0-alpha1			
Version:	0.13.1		**OS:**	Any

Description

Buffergroups were an idea to implement query merging. We should think about something better.

History

#1 - 01/17/2008 03:42 PM - EgS

In the future buffergroups will be treated like regular buffers. Therefore they don't need special treatment storagewise, which would actually be more difficult.

solution: drop the BufferGroup table, store groups in the regular Buffer relation and introduce a buffertype.

#2 - 02/02/2008 05:25 PM - EgS

buffergroup table is gone in SQLite Schema Version 2
