Quassel IRC - Bug #779

Configure/Misc/Networks/Connection has unclear descriptions/labels

08/27/2009 10:56 AM - DevUrandom

Status:	Resolved		**Start date:**	08/27/2009
Priority:	Normal		**Due date:**	
Assignee:	Sputnick		**% Done:**	100%
Category:	Usability		**Estimated time:**	0.00 hour
Target version:	0.6.0			
Version:	0.3.0.x		**OS:**	Any

Description

The labels read now: = [] Automatic Reconnect =
Interval: (Xs)
Retries: (X) [] Unlimited
[] Rejoin all channels on reconnect

No useful tooltips exist.

The labels should read: = [] Automatic Reconnect =
Wait (Xs) between retries / server cycles
Number of retries: (X) [] Unlimited
[] Rejoin all channels after reconnect

Tooltip should be:
Automatic Reconnect -> Automatically reconnect to the IRC network after errors

I tried to get the labels into a meaningful state without using tooltips. I may have failed at that and/or tooltips may be inevitable.
Comments please!

Version: 0.5_rc1
