

Quassel IRC - Feature #792

Please add a flag to not auto-hide some channels

Description

I have recently started using the auto-hide inactive buffers, and on the whole it is great.

However there are some channels that I'd like to stay shown. The core channels that I follow. For some channels I'm happy that they auto-hide, but some I'd like to stay active.

Actually the main reason that I use auto-hide is to auto-hide the private messages. My normal channels I'd be happy to have them visible all the time, but to hide private messages.

History

You could do a client who does the autohide by itself.

Actually I think it's a good idea to have a 'complex' autohide system, i'll extend my <https://github.com/phhusson/QuasselBots/> to be able to do that.

#2 - 05/11/2014 01:33 AM - phhusson

I added it QuasselBots:

<https://github.com/phhusson/QuasselBots/commit/4b46841ae2c57e434a5f6f6bcb7bc6c208fa72c4>
