Category:	Quassel GUI (Qt)	Estimated time:	0.00 hour
Target version:	0.7.0		
OS:	Any		
Description			
it would be nice to have an option for wordrapping in the input line.			
imho, it should be po already in 0.5).	ssible to use the input line as in a html text a	rea (with the exception	of shift+return for manual line breaks as
			.,

when doing support over IRC it's very useful to be able to reread the text before submitting it...
