

Quassel IRC - Bug #86

Messages received during backlog request show up twice

01/28/2008 09:28 PM - Sputnik

Status:	Closed	Start date:	
Priority:	High	Due date:	
Assignee:	Sputnick	% Done:	0%
Category:	Quassel Client	Estimated time:	0.00 hour
Target version:	0.2.0-alpha1		
Version:	0.13.1	OS:	Any
Description			
Most probably a race condition: Client requests the backlog, and while the core duly delivers it, new messages are received, which are then sent to the client via normal displayMsg and via backlog. Probably only happens if the core hasn't started sending out the backlog for that particular chan yet.
