

Quassel IRC - Bug #894

quassel-client crash on exit

01/18/2010 03:47 AM - kitterma

Status:	Closed	Start date:	01/18/2010
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Quassel Client	Estimated time:	0.00 hour
Target version:		OS:	Any
Version:	0.5.2		
Description			
Application that crashed: quasselclient Version of the application: v0.5.0 (dist-638987e) KDE Version: 4.3.4 (KDE 4.3.4) Qt Version: 4.5.2 Operating System: Linux 2.6.31-16-generic i686 Distribution: Ubuntu 9.10			
What I was doing when the application crashed:			
I disabled visual notifications for private messages while a rash of CTCP VERSION requests were coming in. When that didn't stop the visual notification flood, I exited the client. The crash occurred right after I did File --> Quit.			
<pre>-- Backtrace: Application: Quassel IRC (quasselclient), signal: Segmentation fault [Current thread is 1 (Thread 0xb781f760 (LWP 2216))]</pre>
