

Quassel IRC - Bug #923

Quassel server hangs when deleting a large buffer.

02/27/2010 01:20 PM - jotik

<b>Status:</b>	Confirmed	<b>Start date:</b>	02/27/2010
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>OS:</b>	Linux
<b>Version:</b>	0.6-pre		
<b>Description</b>			
<p>When I deleted a huge buffer, Quassel got stuck. Client lagged behind the core server over 600 seconds. Disk activity (MD RAID1 with 2 disks) on the core server was very high. Finally after it had finished deleting the buffer, I received the some "new" IRC messages and an immediate disconnect (ping timeout) from all networks.</p> <p>Can't this deletion be done in the background?</p> <p>Gentoo Linux net-irc/quassel-0.6_beta1 USE="dbus server ssl -X -ayatana -debug -kde -monolithic -phonon -postgres -webkit" Qt 4.5.3</p>			

History

- Status changed from New to Confirmed

This is due to the database being sloooooow when it comes to deleting messages.

It would be nice to be able to background such long tasks (such as fetching the backlog as well), but I'm not sure right now how feasible that would be to implement.

#2 - 08/07/2018 02:14 PM - jotik

This is still still an issue with 0.13\_rc1, even with PostgreSQL.
