Quassel IRC - Feature #928

Adding and connecting to a new network doesn't show the status buffer

03/04/2010 11:54 AM - kode54

Status:	New	**Start date:**	03/04/2010
Priority:	Normal	**Due date:**

Category:		**Estimated time:**	0.00 hour
Target version:			
OS:	Any		

Description

When adding a new network, clicking on it in the chat list prior to actually connecting shows the Quassel logo. Right clicking on it and connecting does not change this status. It is necessary to select another buffer from the chat list, then select the new buffer again to actually show its contents. I'm guessing this is because the buffer does not exist yet at the point in time before actually connecting to the server for the first time, but it would be nice if it could automatically select and display it after invoking the connection, when it's already selected in the chat list.
