Quassel IRC - Feature #963

Don't display mode changes during netsplits

05/15/2010 03:10 AM - TerrorBite

Status:	New		**Start date:**	05/15/2010
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Quassel Client		**Estimated time:**	0.00 hour
Target version:				
OS:	Any			

Description

Mode changes SHOULD be hidden from the user between the time a netsplit is detected as starting, and when it is detected as ending. This is because large quantities of mode changes are generated upon rejoin, especially by Services bots. The hiding of these mode changes MAY be made a configurable option in the preferences.

The key words "MUST", "MUST NOT", "REQUIRED", "SHALL", "SHALL NOT", "SHOULD", "SHOULD NOT", "RECOMMENDED", "MAY", and "OPTIONAL" in this document are to be interpreted as described in RFC 2119.
