

Quassel IRC - Bug #965

Changing nicks causes an alphabetically sorted buffer list to become disorganized

05/16/2010 11:46 AM - TerrorBite

Status:	New	Start date:	05/16/2010
Priority:	Normal	Due date:

Target version:		OS:	Any
Version:	0.4.3		
Description			
Newly opened PM buffers will find their correct place via bubble sort, but that only works if the list is sorted, which after the first nick change, it isn't. Example:			
• PM buffers in the list consist of: Amy, Betty, Chad, Darlo • Betty then changes nick to Fred • List is now: Amy, Fred, Chad, Darlo • Say that a buffer for Eddy is now created, the result is: Amy, Eddy, Fred, Chad, Darlo			
The current workaround is to open Preferences, unticking Alphabetic, ticking it again, then hitting Apply - that will re-sort the list.
