

Quassel IRC - Bug #966

/chanop and /nickop seems to get an extra character in input

05/17/2010 01:45 AM - rapidDazz

Status:	Resolved	Start date:	05/17/2010
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Quassel Client	Estimated time:	0.00 hour
Target version:		OS:	Windows
Version:	0.6-pre		
Description			
When messaging chanop or nickop directly (/chanop or /nickop), it appears that ":" is added to the beginning of the last word.			
<pre>*/msg chanop topic #channelname It's cold =D And stuff!* ChanOP has changed topic for #channelname to: "It's cold =D And stuff!" */chanop topic #channelname It's cold =D And stuff!* ChanOP has changed topic for #channelname to: "It's cold =D And :stuff!" */topic* Topic for #channelname is "It's cold =D And :stuff!" Topic set by rapidDazz on Mon May 17 09:29:44 2010 */topic It's cold =D And stuff!* rapidDazz has changed topic for #channelname to: "It's cold =D And stuff!" */chanop topic #channelname the quick brown fox jumps over the lazy dog* ChanOP has changed topic for #channelname to: "the quick brown fox jumps over the lazy :dog"</pre>			
Causes issues primarily when using /nickop to identify yourself on the network, but as he doesn't repeat your password back to you, using Chanop and topic was the quickest way to show this.			
Linux: quasselcore-static-0.6.1 Windows 7: Client 0.6.1			

History

#1 - 08/04/2010 09:41 PM - Anonymous

Confirmed on my end as well (workaround is to make an alias w/ the desired effect of the ircd's alias)

#2 - 06/14/2021 02:47 PM - phuzion

- Status changed from New to Resolved

I am unable to reproduce this issue on Fedora 34 Quassel 0.13.1, so it seems to have been fixed at some point in the past.

I'm going to close this issue, but if you continue to have this issue please feel free to reopen it.
