

Quassel IRC - Feature #975

topic reflects text color but not background

05/26/2010 06:26 PM - urgen

Status:	New	Start date:	05/26/2010
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
OS:	Any		
Description			
This is almost a bug because if you have light text it will not be possible to read the topic.			
Please add the ability to adjust topic text and background colors for the topic bar.

I can't duplicate this. A screenshot of it working on my machine (with a minor caveat, see #976) is attached.

Here's my screenshot.. I see that I didn't explain myself clearly. Note black background, green text in chat window but not topic area.

#3 - 05/27/2010 04:35 AM - flamingspinach

Ah. This is a problem that has plagued any and all IRC clients forever. Frankly I think it's up to the ops of a channel to set colors properly in their topics, but I suppose the best thing to do would be to have an option to turn off colors in topics entirely, and separate it from the decision of whether to allow colors in channel messages.
