Quassel IRC - Feature #991

Transfer settings from monolithic to client/server

06/15/2010 05:05 AM - Oceanwatcher

Target version:				
OS:	Any			

Description

I just installed the core server on my Ubuntu server and the client on my Kubuntu laptop. Over the last months, I have been using the monolithic version that comes with Kubuntu and would love to be able to export/import the settings and channels from the monolithic to the client/server version.
